Insects or Insecta (from Latin insectum) are hexapod invertebrates and the largest group within the arthropod phylum. Definitions and circumscriptions vary; usually, insects comprise a class within the Arthropoda. As used here, the term Insecta is synonymous with Ectognatha. Insects have a chitinous exoskeleton, a three-part body (head, thorax and abdomen), three pairs of jointed legs, compound ...

Malthusian Theory of Population Growth: Definition & Overview

Population transfer or resettlement is the movement of a large group of people from one region to another, often a form of forced migration imposed by state policy or international authority and most frequently on the basis of ethnicity or religion but also due to economic development. Banishment or exile is a similar process, but is forcibly applied to individuals and groups.

The ancient Incas of Peru believed cocaine to be a gift from the gods. However, it is a modern-day curse to the emergency physician. [] Aside from alcohol (and not including tobacco-related illnesses), cocaine is the most common cause of drug-related ED visits in the United States, accounting for 505,224 ED visits in 2011, according to the Drug Abuse Warning Network (DAWN). []
