Summer Classes. TPS offers great summer courses for strengthening foundational skills to smooth out rough patches from the prior school year or give a head start for the next school year.

### **Subject Catalog | TPS**

In this section we will introduce two problems that we will see time and again in this course : Rate of Change of a function and Tangent Lines to functions. Both of these problems will be used to introduce the concept of limits, although we won't formally give the definition or notation until the next section.

The oldest known sundial is from Egypt; it dates back to around 1500 BC (19th Dynasty), and was discovered in the Valley of the Kings in 2013. Sundials have their origin in shadow clocks, which were the first devices used for measuring the parts of a day. Ancient Egyptian obelisks, constructed about 3500 BC, are also among the earliest shadow clocks.

Physicist here -- I'm probably too late for this to get noticed, but the title of this article is super misleading. The expansion rate of the universe has always been changing, that's not news.

### **Hubble finds the universe is expanding 9% faster than it ...**

I assume entropy was mentioned in the context of building decision trees.. To illustrate, imagine the task of learning to classify first-names into male/female groups. That is given a list of names each labeled with either m or f, we want to learn a model that fits the data and can be used to predict the gender of a new unseen first-name.. name gender ----- Now we want to predict Ashley f the ...

### **Course Catalog | Edmentum**

The question-answer relationship (QAR) strategy helps students understand the different types of questions. By learning that the answers to some questions are "Right There" in the text, that some answers require a reader to "Think and Search," and that some answers can only be answered "On My Own," students recognize that they must first consider the question before developing
