The population of the study comprises all persons in Germany who are able to use mobile applications. The information required for this study was not available in the form of secondary data, so we collected primary data through a survey. Based on data from the national census bureau (Statistisches Bundesamt 2006), a proportionate stratified sampling approach was followed.

Productivity measures that use one class of inputs or factors, but not multiple factors, are called partial productivities. In practice, measurement in production means measures of partial productivity. Interpreted correctly, these components are indicative of productivity development, and approximate the efficiency with which inputs are used in an economy to produce goods and services.

Managerial accounting contrasts with financial accounting in that managerial accounting is for internal decision making and does not have to follow any rules issued by standard-setting bodies. Financial accounting, on the other hand, is performed according to Generally Accepted Accounting Principles (GAAP) guidelines.
