Active Learning A learning organization is a place where people are continually discovering how they create their reality. And how they can change it. - Peter Senge. Learning is often accomplished in a passive manner by having the content transmitted to the learners for them to absorb, such as a lecture or a reading assignment.. Active learning involves the learners by having them engaged in ...

In general, a cone is a pyramid with a circular cross section. A right cone is a cone with its vertex above the center of its base. However, when used without qualification, the term "cone" often means "right cone." In discussions of conic sections, the word "cone" is taken to mean "double cone," i.e., two cones placed apex to apex. The double cone is a quadratic surface, and each single cone ...
