Boston is the capital and most populous city of the Commonwealth of Massachusetts in the United States. The city proper covers 48 square miles (124 km²) with an estimated population of 685,094 in 2017, making it also the most populous city in New England. Boston is the seat of Suffolk County as well, although the county government was disbanded on July 1, 1999.

John Hattie developed a way of synthesizing various influences in different meta-analyses according to their effect size (Cohen's *d*). In his ground-breaking study "Visible Learning" he ranked 138 influences that are related to learning outcomes from very positive effects to very negative effects. Hattie found that the average effect size of all the interventions he studied was 0.40.
