25 Marine Electrical Interview Questions And Answers ...

A marine electrician is someone who installs and takes care of electrical equipment and systems on board ships and boats. He or she may also handle emergency repairs on ships in port, in dry dock, and out at sea. Simple electrical systems fall under the responsibilities of a marine electrician, while more advanced technology may require a marine engineer.

What does a marine electrician do? - CareerExplorer

A marine electrician installs, maintains, and repairs electrical systems and equipment on board boats and ships. Employment in this field may require special certifications, depending on the types of ships an electrician works on. In addition to working on ships in port, marine electricians can also handle craft while they're in dry dock and out at sea if a boat requires emergency repairs.
