69) Design a flow chart or concept map to summarize the information in the text under the heading
"Cell-to-Cell Communication." This chart should make clear the four basic methods of cell-to-cell
communication, and the relevance of and distinction between paracrine, autocrine, neurocrine, and
cytokine chemicals.

Chapter 6 Flashcards | Quizlet

Concept 11.1 External signals are converted into responses within the cell. What messages are
passed from cell to cell? How do cells respond to these messages? We will first consider
communication in microbes, to gain insight into the evolution of cell signaling. Cell signaling
evolved early in the history of life.
