Cell Tower Solutions

Cell Tower Solutions is the first company in the US to accurately value cell, radio and communication towers with associated carrier equipment for the most accurate appraisal possible. We have assisted counties and states throughout the US to find unreported assets, readjust values, and learn how to better work with the wireless industry.

Cell Tower Solutions

Towers represent a huge investment and revenue generator for the providers and cell tower companies. As of 2015, there are an estimated 200,000 towers in the United States. The task of inventorying and tracking value falls completely on the tower companies and carriers to provide accurate information.

About - Cell Tower Solutions

The hundreds of thousands of cell phone towers located across the United States are part of the foundation of what makes the telecommunications world go round. For the many operators whose cell tower is on leased land, that foundation is shaky.

Cell Tower Solutions | Vertical Consultants: Cell Tower ...

Cell towers allow millions of people to text, perform calls, watch vides and use apps, accessing all their information on the go. A cell tower transfers data through fiber optic or copper cables, in most cases, which lead to the antenna at the tower's apex, at which point the tower will communicate with other towers and satellites.
