Dougherty, Mr. | Science / BIOLOGY: Dissection - Starfish

Perch Dissection Lab Guide SNC 2D1 Background Information Fish are the largest group of vertebrates found in fresh and salt water. In fact, over 25,000 species of fish comprise about 50% of the vertebrate population. Part of the reason for the large numbers of fish is due to how well adapted they are to life in an aquatic environment. In

Perch Dissection Lab Guide - Grygla Public School

Most biology classes will have some form of dissection - the frog is the most common. However, if you do not do an actual dissection, many of the sections below contain links to virtual dissections and image files. I also have resources at anatomycorner.com for classes that are focused on human anatomy and cat dissections.
