Big data (genetics, social media, environmental, and lifestyle-related factors, or “omic” data) can be stored through EHRs or precision medicine platforms, and can be shared for data analysis with other physicians or researchers through secure cloud systems.

Artificial Intelligence in Precision Cardiovascular ...

Statins, also known as HMG-CoA reductase inhibitors, are a class of lipid-lowering medications that are thought to reduce illness and mortality in those who are at high risk of cardiovascular disease.. The lipid hypothesis is that low-density lipoprotein (LDL) carriers of cholesterol are said by some to play a key role in the development of atherosclerosis and coronary heart disease.

Statin - Wikipedia

Transcatheter cardiac interventions are a fast evolving field. The past decade has seen the development of transcatheter aortic valve replacement, transcatheter mitral valve repair and replacement, septal defect closure devices and left atrial appendage closure devices for thromboprophylaxis.
