CAUTION: The answers given here to the questions presented are based upon the rules contained in Robert's Rules of Order Newly Revised. These rules are, in effect, default rules; that is to say, they govern only if there are no contrary provisions in any federal, state, or other law applicable to the society, or in the society's bylaws, or in any special rules of order that the society has adopted.

Financial economics is the branch of economics characterized by a "concentration on monetary activities", in which "money of one type or another is likely to appear on both sides of a trade". Its concern is thus the interrelation of financial variables, such as prices, interest rates and shares, as opposed to those concerning the real economy. It has two main areas of focus: asset pricing and ...
