Animals are multicellular eukaryotic organisms that form the biological kingdom Animalia. With few exceptions, animals consume organic material, breathe oxygen, are able to move, can reproduce sexually, and grow from a hollow sphere of cells, the blastula, during embryonic development. Over 1.5 million living animal species have been described—of which around 1 million are insects—but it has ...

Thanatophobia, or "fear of death," affects millions of people worldwide. For some people, it can produce anxiety and/or obsessional thoughts. While thanatophobia is the fear of death and/or one's own mortality, a fear of dying people or dead things is known as "necrophobia," which is different from thanatophobia.
