Lab 19A: Investigating Chemical Equilibrium Purpose: To observe shifts in equilibrium concentrations when stresses such as temperature changes are applied through recognizing macroscopic properties of chemical systems and being able to explain the results using Le Chatelier's principle.

Lab 19a Investigating Chemical Equilibrium - Lab Report ...

Investigating Chemical Equilibrium. Introduction: Most chemical reactions appear to proceed to completion. Under certain conditions, however, the products may have sufficient energy to reform reactants in a reverse reaction. When reactions continue to occur, the net concentration of each substance remains the same.
