This paper studies the leadership style and leaders' power in a large scale organization. Our case study analyzes a higher education organization (university) with 1352 employees targeting the support positions in the organization for didactic activities (auxiliary didactic employees and non-didactic employees).

Study on Management Styles and Managerial Power Types for ...

Notes: The overall purpose of this course is to supply low-intermediate students with speaking, listening comprehension, reading and writing skills that help them become more successful in their jobs and community. The intensive approach focuses on common errors by comparing and contrasting Spanish and English grammar, with an emphasis on classroom participation.

In project management, a schedule is a listing of a project's milestones, activities, and deliverables, usually with intended start and finish dates. Those items are often estimated by other information included in the project schedule of resource allocation, budget, task duration, and linkages of dependencies and scheduled events. A schedule is commonly used in the project planning and project ...

Schedule (project management) - Wikipedia

An investor's level of influence over an investee is the primary determinant of the method used to account for investments in common stock. The amount of influence refers to the degree of control exerted by the company that purchases the stock over operating decisions of the company issuing the stock.
