Life. Conrad Waddington, known as "Wad" to his friends and "Con" to family, was born in Evesham to Hal and Mary Ellen (Warner) Waddington, on 8 November 1905.. His family moved to India and until nearly three years of age, Waddington lived in India, where his father worked on a tea estate in the Wayanad district of Kerala. In 1910, at the age of four, he was sent to live with family in England ...

C. H. Waddington - Wikipedia

Evolution is change in the heritable characteristics of biological populations over successive generations. These characteristics are the expressions of genes that are passed on from parent to offspring during reproduction. Different characteristics tend to exist within any given population as a result of mutation, genetic recombination and other sources of genetic variation.
