Evolution is change in the heritable characteristics of biological populations over successive generations. These characteristics are the expressions of genes that are passed on from parent to offspring during reproduction. Different characteristics tend to exist within any given population as a result of mutation, genetic recombination and other sources of genetic variation.

Evolution - Wikipedia

I've been a bit preoccupied the past few weeks, healing from a nasty fall on the dance floor that sent me on my first ambulance ride, a nearly all-night-long visit to the Emergency Room, and a follow-up surgery that yielded permanent "bling" to hold together my right wrist.

Decisions are the heart of success and at times there are critical moments when they can be difficult, perplexing and nerve racking. This side provides useful and practical guidance for making efficient and effective decisions in both public and private life.

Overcoming Serious Indecisiveness

Reality television is a genre of television programming that documents purportedly unscripted real-life situations, often starring unknown individuals rather than professional actors. Reality television came to prominence in the late 1990s and early 2000s with the global successes of the series Survivor, Idols, and Big Brother, all of which became global franchises.
