Introduction to the Evolution literature - Gert Korthof

Why a Scientific Format? The scientific format may seem confusing for the beginning science writer due to its rigid structure which is so different from writing in the humanities. One reason for using this format is that it is a means of efficiently communicating scientific findings to the broad community of scientists in a uniform manner.

The actual biological transcription process works from the template strand, doing a reverse complement (TCAG → CUGA) to give the mRNA. However, in Biopython and bioinformatics in general, we typically work directly with the coding strand because this means we can get the mRNA sequence just by switching T → U.

Biopython Tutorial and Cookbook

1. God is limited to working within time. F: 2. God changed His goals He had for mankind after they rejected His Son and crucified Him. F: 3. Every person of the Godhead has every attribute common to the others.
