Credits: 1. Prerequisite: Middle school biology and chemistry. Recommended: 9th or 10th Test Prep: CLEP Biology This course covers the basic material for this exam, but this is considered a very hard test, and I would suspect more will need to be studied to learn everything required for this huge exam. It's worth the same as two college courses which is why it covers so much.

The problem is that it is a TCP connection that is in a TIME_WAIT state. A connection is identified by two addresses: the remote port/ip and local port/ip. Note that when a TCP server isn't restarted (uses the same socket all the time) client connections are coming and going and cycling through TIME_WAIT states all the time. New clients are not blocked from connecting because previous clients ...
