History Biostatistics and Genetics. Biostatistical modeling forms an important part of numerous modern biological theories. Genetics studies, since its beginning, used statistical concepts to understand observed experimental results. Some genetics scientists even contributed with statistical advances with the development of methods and tools.

Although the myofibers in centronuclear myopathy do not share all the histologic features of embryonic myotubes, the centrally placed nuclei have suggested to many investigators that the primary pathology in this disorder is an arrest of muscle fiber maturation at the myotube stage (Banker, 1986). Mora et al. (1994) suggested that there is only a partial arrest of fiber maturation because they ...
