Cisco CCNA What is the host IP and default gateway address? The host address can be any unused  
IP address in the range. A /28 mask is a block size of 16, so the subnets are 0, 16, 32, 48...The  
routers interface is in the 16 subnet, so the host range is 17-30.

In this lab, you will create VLANs on both switches in the topology, assign VLANs to switch access  
ports, verify that VLANs are working as expected, and then create a VLAN trunk between the two  
switches to allow hosts in the same VLAN to communicate through the trunk, regardless of which  
switch the host is actually attached to.
