The SL-1, or Stationary Low-Power Reactor Number One, was a United States Army experimental nuclear power reactor in the United States which underwent a steam explosion and meltdown on January 3, 1961, killing its three operators. The direct cause was the improper withdrawal of the central control rod, responsible for absorbing neutrons in the reactor core.

What is a Vented Hot Water Cylinder? Vented hot water cylinders, or vented hot water storage units, need to be fed from a cold water cistern tank, which is kept in the loft, with the water being gravity fed via a vent pipe (hence the name 'vented cylinder') down to the hot water cylinder - usually installed in an airing cupboard.

### **Vented and Unvented Hot Water Cylinders - Boiler Guide**

We reveal the five things you need to know before you buy a new boiler. Buying a new boiler is expensive - our quick guide makes it easier for you to decide what type and size you need, plus how much it will cost to install.
