See how your blood can save lives, the people whose lives have been changed by blood donation, the crazy myths about blood donation and where you can donate.

Your Blood Saves Lives

Any extended sitting — such as at a desk, behind a wheel or in front of a screen — can be harmful. An analysis of 13 studies of sitting time and activity levels found that those who sat for more than eight hours a day with no physical activity had a risk of dying similar to the risks of dying posed by obesity and smoking.

Sitting risks: How harmful is too much sitting? - Mayo Clinic

You can equip two primary weapons at once. Only one will be available at any given time, but pressing RIGHT will allow you to swap. Try to select two weapons that match your character's stats and complement each other; for example, you may choose a quick close-range weapon and a slow weapon that has more reach.

In Mormonism, blood atonement is a controversial doctrine which teaches the view that the atonement of Jesus does not apply because some crimes are extremely heinous. Instead, to atone for these sins, the perpetrators should be killed in a way that allows their blood to be shed upon the ground as a sacrificial offering.

Blood atonement - Wikipedia

Blood pressure is essential to life because it forces the blood around the body, delivering all the nutrients it needs. Here, we explain how to take your blood pressure, what the readings mean ...

Blood pressure: What is normal? - Medical News Today

Elevated blood pressure is a common health issue today. Almost a third of U.S. adults have high blood pressure – perhaps you or someone in your family does? High blood pressure isn't necessarily something you can feel, but it increases the risk of serious conditions such as strokes and heart attacks.
