Schoolwork. I had a grand—brilliant, even—idea in 2012 to publicly archive all of my academia (saved at the time only locally on now long-trashed hard drives) on this website with the notion that I may attract scholars seeking educational refuge, farcically hoping to shortcut the system through search engine; and that I, in the process, would reap ad revenue from these forlorn minds.

A camera works with the light of the visible spectrum or with other portions of the electromagnetic spectrum. A still camera is an optical device which creates a single image of an object or scene and records it on an electronic sensor or photographic film. All cameras use the same basic design: light enters an enclosed box through a converging/convex lens and an image is recorded on a light ...
