Quiz & Worksheet - Interaction of Light & Matter | Study.com

Apart from the electromagnetic waves, there are also matter waves, like water waves and sound waves. These travel at a much lower speed. Whereas light can travel in a vacuum, i.e. a place with no particles (like empty space), matter waves need a medium, i.e. particles, to travel in. That's how light can travel in space, but sound cannot.

Light Waves Worksheet - EdPlace

Light travels at an incredible fast speed and it allows us to see everything around us. It travels as a wave which interacts with different types of matter in a different way. This lesson is designed for 7th grade students to investigate the different ways in which light waves interact with matter. The type of matter depends on which state the ...
