Mastering bitumen for better roads and innovative applications

1. Introduction. Research on organizational innovation continues to be popular in academic circles. Wolfe (1994) reported that during the five years preceding his study, approximately 350 dissertation and 1300 journal articles were written on the topic. Despite their efforts, however, researchers still cannot identify with certainty the causes and effects of organizational innovations.

Theories of organizational structure and innovation ...

Mastery learning (or, as it was initially called, "learning for mastery") is an instructional strategy and educational philosophy, first formally proposed by Benjamin Bloom in 1968. Mastery learning maintains that students must achieve a level of mastery (e.g., 90% on a knowledge test) in prerequisite knowledge before moving forward to learn subsequent information.

Mastery learning - Wikipedia

The Department of Afro-American Studies is committed to bringing academic research to the broadest possible audience, within and beyond the walls of the university. The department believes that the deepest understanding of the complex reality of race in America requires a truly interdisciplinary approach, one that draws on history and literature, the social sciences and the arts.
