Job costing vs. process costing. Job costing (known by some as job order costing) is fundamental to managerial accounting. It differs from Process costing in that the flow of costs is tracked by job or batch instead of by process.. The distinction between job costing and process costing hinges on the nature of the product and, therefore, on the type of production process:

Accounting ethics is primarily a field of applied ethics and is part of business ethics and human ethics, the study of moral values and judgments as they apply to accountancy. It is an example of professional ethics. Accounting introduced by Luca Pacioli, and later expanded by government groups, professional organizations, and independent companies.. Ethics are taught in accounting courses at ...
