It is easy enough to formulate simple catchy versions of the idea of constructionism; for example, thinking of it as "learning-by-making." One purpose of this introductory chapter is to orient the reader toward using the diversity in the volume to elaborate--to construct--a sense of constructionism much richer and more multifaceted, and very much deeper in its implications, than could be ...

Situating Constructionism - Professor Seymour Papert

Entry requirements. While no formal qualifications are required, a good basic knowledge of geometry and trigonometry is an advantage. You should have had some exposure to directional survey data and a background in drilling or geoscience.
