### **Lymphatic System Test Review Flashcards | Quizlet**

What is the lymphatic system? It's a critical part of the immune system, vital for protecting us from illness and damaging, disease-causing inflammation. Essentially, the lymphatic system is the body's inner "drainage system," a network of blood vessels and lymph nodes that carry fluids from tissues around the body into the blood and vice versa.

### **Lymphatic System: How to Make It Strong & Effective - Dr. Axe**

The immune and lymphatic systems are two closely related organ systems that share several organs and physiological functions. The immune system is our body's defense system against infectious pathogenic viruses, bacteria, and fungi as well as parasitic animals and protists.
