@Kevin: There's no need to parenthesize FOO and BAR in this case, since they're not macro parameters, and they expand to single tokens (and if they don't, then their definitions should be parenthesized). The guidelines for macros that expand to a valid expression, the guidelines are: 1. Put parentheses around the entire definition, and 2.

### **c - Why doesn't this math work with macros? - Stack Overflow**

Macroeconomics, in contrast, endeavors to encapsulate the economic status of the economy. • A central problem in Microeconomics is the determination of equilibrium price and quantity in individual markets and industry. In Macroeconomics, however, the central problem is the determination of national output, income and employment.
