The nictitating membrane, or third eyelid, is unique to vertebrates, although not found in all groups. In many species, it represents the principal mechanism of ocular cleansing. In birds, the external eyelids possess smooth muscle, and may close only during sleep. The nictitans, on the other hand, is operated by two striated muscles and is capable of extremely rapid sweeps across the ocular ...

After studying the material on this page you should be able to: recognize the names & faces of the founders of ethology and behaviourism list and compare the characteristics of ethology and experimental animal psychology describe the 'nature/nurture' problem explain the significance of Hailman's experiment on development of pecking preference in young herring gulls describe the interaction ...

The role of nature and nurture in the development of behaviour

Stem cells are cells that can differentiate into other types of cells, and can also divide in self-renewal to produce more of the same type of stem cells.. In mammals, there are two broad types of stem cells: embryonic stem cells, which are isolated from the inner cell mass of blastocysts in early embryonic development, and adult stem cells, which are found in various tissues of fully ...

Stem cell - Wikipedia

This activity uses the concept of natural selection to introduce the idea of formulating and testing a scientific hypothesis. Through a focused discussion approach, the teacher provides information and allows students time to think, interact with peers, and propose explanations for observations described by the teacher.

Early Australian History, by Charles White, free ebook. INTRODUCTORY. How strangely the links fit in! Little did the British Government think when issuing the orders in Council in 1786 for establishing a Convict Settlement in New South Wales, that they were taking the initial steps towards founding a "New Britannia in the Southern World."

Early Australian History, by Charles White

В истории 56 одШБр четко написано, что 3 парашютно-десантный батальон в феврале 1980 г. был переименован во второй, а затем в марте того же года был исключен из состава 56 бригады, то есть с этого момента он являлся десантно ...
