[Short Answer Section] 1. Does exercising by doing jumping jacks before clothespin squeezing increase the rate of clothespin squeezing? (Note that problem is properly expressed as a question statement and if it was not stated as a question this instructor will mark this as incorrect!) 2. If I exercise by doing jumping jacks prior to squeezing the clothespin, then the rate of clothespin ...

Making Connections Practice Quiz Answers - Google Docs

Discussion/Conclusion: The data showed that the experimental group averaged 2 squeezes per minute more than the control group. These results are too similar to accurately support or refute the hypothesis. However, if the results are accurate a possible explanation is that the experimental group had increased pulse rate, and quicker blood flow.
