What is stress? There are many definitions of stress. Just as there are many definitions of fatigue, of mental health and upset. These terms describe a wide range of experiences and not entirely clear cut.

Workplace Stress FAQs - Health and Safety Authority

What is a condenser? In a HVAC unit the condenser is where the heat extracted from the interior is released into the open air. The cooled refrigerant then returns to the evaporator where the air that flows over it is chilled, causing the interior temperature to drop. Condenser problems will affect heating and cooling.

Questions on Condenser Problems Answered - ASAP
