What is a survey? A survey is a simple tool for gathering information. Surveys typically consist of a set of questions used to assess a participant's preferences, attitudes, characteristics and opinions on a given topic. As a research method, surveys allow us to count or quantify concepts—a sample or subset of the broader audience is used, the learnings from which can be applied to a ...

I'm going to tell you the weirdest and, yet, most obviously true thing you've ever heard: You're not a person. This is going to sound like some real Rust Cohle s**t, but bear with me because deep down you already know all of this.. For instance, you already know that you are, to a certain degree, a product of your genes -- they go a long way toward determining if you would be physically ...

What is a Customer Journey Map? A Customer Journey map is a visual or graphic interpretation of the overall story from an individual's perspective of their relationship with an organization, service, product or brand, over time and across channels. Occasionally, a more narrative, text-based approach is needed to describe nuances and details associated with a customer experience.
