Since Vygotsky's original conception, the definition for the zone of proximal development has been expanded and modified. The zone of proximal development is an area of learning that occurs when a person is assisted by a teacher or peer with a higher skill set. The person learning the skill set cannot complete it without the assistance of the teacher or peer.

You're out of time and definitely are going to have to answer their question now. Except no. No, you're not. You just have to answer some question right now. One study has found that people don't seem to notice if you answer a question that's different but still similar to the one actually asked. If someone asks you what you think about global warming, you can answer with something about the ...
