ANSWER: The catacombs were underground burial places in which Christians hid from the persecutions of the Roman emperors. During the first 200 years of Christianity, over 6 million Christians were entombed within the catacombs of Rome. - murdered. How many more were buried within the other unexplored catacombs is difficult to say.

QUESTIONS AND ANSWERS - beforeus.com

Evolution is change in the heritable characteristics of biological populations over successive generations. These characteristics are the expressions of genes that are passed on from parent to offspring during reproduction. Different characteristics tend to exist within any given population as a result of mutation, genetic recombination and other sources of genetic variation.
