The whole point of a unit test is to test a unit (duh) in isolation. The whole point of a database call is to integrate with another unit (the database). Ergo: it doesn't make sense to unit test database calls. You should, however, integration test database calls (and you can use the same tools you use for unit testing if you want).

### **How to write unit tests for database calls - Stack Overflow**

This collection of Math Resources has multiple pages designed for teaching within specific grade bands. You'll also find valuable collections of support and enrichment resources that will benefit all learners.
