1. Introduce the structure of proteins, using a pipe cleaner. Twist the pipe cleaner into a coil and then "coil the coil" upon itself. Illustrate the concept of lock and key by showing how a

The Effects of Heat and Acid on the Enzyme Catalase

The Student's t-test is a statistical test that compares the mean and standard deviation of two samples to see if there is a significant difference between them. In an experiment, a t-test might be used to calculate whether or not differences seen between the control and each experimental group are a factor of the manipulated variable or simply the result of chance.
