The first article Mathematical Problem Solving in the Early Years pointed out that young children are natural problem setters and solvers: that is how they learn. This article suggests ways to develop children's problem solving strategies and confidence. Problem solving is an important way of learning, because it motivates children to connect previous knowledge with new situations and to ...

Another toughie - a Möbius strip is a strange mathematical shape which only has one side, so you can't get to the other side. As shown here, it is just a loop with a single twist, but if you imagine running your finger along one side of the loop you will find that your finger covers every bit of the loop... so it only has one side.
