Manual Of Structural Kinesiology Answers

Applied kinesiology (AK) is a technique in alternative medicine claimed to be able to diagnose illness or choose treatment by testing muscles for strength and weakness.. According to their guidelines on allergy diagnostic testing, the American College of Allergy, Asthma and Immunology stated there is "no evidence of diagnostic validity" of applied kinesiology.

Applied kinesiology - Wikipedia

Essentially, Kinesiology as used in the complementary health or natural medicine field, is defined primarily as the use of muscle testing to identify imbalances in the body's structural, chemical, emotional or other energy, to establish the body's priority healing needs, and to evaluate energy changes brought about by a broad spectrum of both manual and non-manual therapeutic procedures.

In chiropractic, a vertebral subluxation is a purported misalignment of the spinal column, not necessarily visible on X-rays. It has no biomedical basis, lacks clinical meaningfulness, and is categorized as pseudoscientific.. Straight chiropractors continue to follow Palmer's vitalistic tradition, claiming that subluxation has considerable health effects and also adding a visceral component to ...

Myopathology – muscle spasm, muscle weakness/ atrophy involving: . There are parallel changes in the organ depots, of course. However, this is dealt with broadly under component #5.

Myopathology is listed as a separate major component of the vertebral subluxation complex simply because myopathology is more readily testable and recognizable at the office level than are organ depot changes.
