Interactions in communities (article) | Khan Academy

Ecology is usually one of the first topics that students review in AP Bio, making it one of the easier things to forget. In this article, "What Is Ecology? An AP Biology Review" we will review what ecology is, the levels of an ecological system, some specific sects of ecology, and finally a question that you could see on your AP Biology exam.

What is Ecology? An AP Biology Review | Albert.io

The concept, put forth by Henry Gleason and Brian Walker, that most of the species in a community are not tightly coupled with one another (that is, the web of life is very loose). According to this model, an increase or decrease in one species in a community has little effect on other species, which operate independently.

Ch.53 AP BIO (Community Ecology) Flashcards | Quizlet

Exploring Interactions. ... The myriad of species interacting in a given area is a biological community. Communities are often identified by their most conspicuous plants or animals, but they also include all of the fungi, protists, and bacteria. A major focus of community ecology explores interactions between species such as predator-prey ...

Community Ecology - Virtual Biology Lab

Landscape ecology refers to the spatial orientation and patterns within specific landscapes or seascapes. Ecosystem ecology observes the interactions, both biotic and abiotic, within a given landscape area. Community ecology is like ecosystem ecology, but applies to communities of organisms.
