One of the primary goals of this Java book is to prepare students for the AP test. Another is to prepare for competition...and in the process, learn Java. Over the years, I have seen such competition make a significant difference in the lives of many students. If a teacher is not gentle in this approach to competition you can easily "burn-out" students....especially if you continually bombard ...

This article proposes a critically important perspective on the Environmental Situation of the world as seen from a distance. It could be perhaps considered as a macroscopic interpretation of the "Global Problematique" as it has been studied now for more than 50 years. The article will revisit past approaches, earlier and present mindsets, and presentation and representation formats; and ...
