Mike, architecture major, Summer 2010 This calculus course was very convenient in the sense that it was online and 4 credits without any major prerequisite. But over the summer I took this class while taking another online class and working 40 hours a week. This calculus class is not good for someone who plans on doing too many other things over the summer.

Integration in calculus is the idea of taking a generalized area underneath the curve of a function. It

is impossible to get an exact area, but you can approximate it with an integral, which is the combination of different measurements of the area under a given curve.
