Management Control Systems Anthony Govindarajan

A management control system (MCS) is a system which gathers and uses information to evaluate the performance of different organizational resources like human, physical, financial and also the organization as a whole in light of the organizational strategies pursued.. Management control system influences the behavior of organizational resources to implement organizational strategies.

Management control system - Wikipedia

This paper reviews research that studies the relationship between management control systems (MCS) and business strategy. Empirical research studies that use contingency approaches and case study applications are examined focusing on specific aspects of MCS and their relationship with strategy.

Management control systems and strategy: A critical review ...

1. Introduction. The literature in the area of performance management systems (PMSs) and management control systems (MCSs) increasingly recognises the need for research to be based on more coherent theoretical foundations (Chenhall, 2003, Covalleski et al., 2003). Researchers suggest that theory be used to contextualise findings and to provide a more systematic development of knowledge in the ...

Notes de bas de page. La typologie simplifiée est : construire, maintenir, récolter (build, hold, harvest de Mc Kinsey). Voir Buzzell et Wiersema (1981) Même le courant contingent, en apparence aux antipodes de ce qui est évoqué ici, puisqu'il s'est bâti sur le déterminisme de l'environnement plus que sur la liberté des choix stratégiques, mérite d'être reconsidéré sous cet angle ...
