Aerobic respiration is the process most living things undergo to use food energy. Here, we will investigate the definition, the steps of the process, what goes in and what comes out of the process

...

Aerobic Respiration: Definition, Steps, Products & Equation

Credits: 1. Prerequisite: Middle school biology and chemistry. Recommended: 9th or 10th Test Prep: CLEP Biology This course covers the basic material for this exam, but this is considered a very hard test, and I would suspect more will need to be studied to learn everything required for this huge exam. It's worth the same as two college courses which is why it covers so much.

Biology with Lab - Easy Peasy All-in-One High School

This site serves as a resource site for students in Biology 1 & 1A. The goal of this course is to provide a general overview of major biological topics, provide opportunities for laboratory investigations, and expose students to current advances in biology and medicine.

Biology 1 & 1A

Why a Scientific Format? The scientific format may seem confusing for the beginning science writer due to its rigid structure which is so different from writing in the humanities. One reason for using this format is that it is a means of efficiently communicating scientific findings to the broad community of scientists in a uniform manner.
