1. Enter Search Criteria. To narrow your search area: type in an address or place name, enter coordinates or click the map to define your search area (for advanced map tools, view the help documentation), and/or choose a date range.

EarthExplorer - Home

Watch P & S waves Moving Through the Earth's Interior-This animation comes from the same site as the animation above, but this shows these same waves as they travel through the interior of the Earth.. Changing the Thickness of a Layer-This animation allows you to compare the paths that P and S waves would take in models of the Earth with liquid cores of different sizes.

Earth Science Current Unit - Welcome to Junior High!! Remember to be successful in Junior High, you must be able to budget your time!! Coordinate all your classes and the homework required.

Mr.E Science Earth Home

Paul Andersen explains how biogeochemical cycles move required nutrients through the abiotic and biotic spheres on our planet. Matter on the Earth is conserved so producers must receive required nutrients through the water cycle, carbon cycle, nitrogen cycle, phosphorus cycle, and sulfur cycle.

AP ES-011 Biogeochemical Cycles — bozemanscience

The most basic concept of all: convection currents!!I've seen many ways to introduce this concept. One uses Baby Food Jars.Fill one baby food jar to the brim with very hot, red-dyed water.Fill another baby food jar with very cold, blue-dyed water.Cover the red jar with an index card, turn it over and place over the blue jar.

Teaching Weather & Climate - Marcia's Science Teaching Ideas

In this activity, learners explore the size and scale of the universe by shrinking cosmic scale in 4 steps, zooming out from the realm of the Earth and Moon to the realm of the galaxies.

Nasa Wavelength | Science Mission Directorate

Layers of the Earth-This site does a great job of quickly explaining the three basic layers of the Earth.. Identifying Layers of Soil-See if you can remember what the different layers of soil are called.Drag the cards next to each of the layers and then match each layer with its description. Stages of Soil Formation-In this activity, see if you can put the pictures in the correct order showing ...

Top 10 Science Results and Technology Innovations After more than 10 years in operation, the MErcury Surface, Space ENvironment, GEOchemistry, and Ranging (MESSENGER) spacecraft impacted the surface of Mercury on April 30, 2015, at a speed of more than 3.91 kilometers per second (8,750 miles per hour), marking the end of operations for the hugely successful Mercury orbiter.

MESSENGER - Top 10 Science Results and Technology Innovations

Virtual Labs Created by Glencoe. Many of these labs allow students to test multiple variables. Caution: the journal and data entry sections of the simulations do not work, so you probably will want to arrange for students to write these on their own pages.

Virtual Labs Created by Glencoe - The Biology Corner

Google Earth is the most photorealistic, digital version of our planet. Where do the images come from? How are they they put together? And how often are they updated?
