Habitat Animal Printouts. The Earth has many different environments, varying in temperature, moisture, light, and many other factors. Each of these habitats has distinct life forms living in it, forming complex communities of interdependent organisms. A complex community of plants and animals in a region and a climate is called a biome.

**Biome/Habitat Animal Printouts - EnchantedLearning.com**

Summary. This interactive module explores biomes, climate, biodiversity, and human impacts around the globe and at different times. TEACH TIME: One to two 50-minute class periods.

**BiomeViewer | HHMI BioInteractive**

A biome is an ecological community of plants and animals, soil and water and air, living together in a particular climatic zone. There are six land biomes: arctic tundra, taiga, temperate deciduous forest, tropical rain forest, tropical savannah, and desert. Each biome has specific climatic conditions - temperature, precipitation amounts, soil conditions, vegetation, and animals.

Fat sources were bacon, steak, etc... Some oils - mainly olive. The Hadza diet fluctuates - sometimes high fat (like during a big kill), but most of the time I would characterize their diet as a lot less fat than one would think (but a work in progress). note also men likely consume a lot more animal fat than females - for a number of reasons. hard to say on michael's cdiff levels ...

Credits: 1. Prerequisite: Middle school biology and chemistry. Recommended: 9th or 10th Test Prep: CLEP Biology This course covers the basic material for this exam, but this is considered a very hard test, and I would suspect more will need to be studied to learn everything required for this huge exam. It's worth the same as two college courses which is why it covers so much.
