OWL // Purdue Writing Lab

Credits: 1. Prerequisite: Middle school biology and chemistry. Recommended: 9th or 10th Test Prep: CLEP Biology This course covers the basic material for this exam, but this is considered a very hard test, and I would suspect more will need to be studied to learn everything required for this huge exam. It's worth the same as two college courses which is why it covers so much.

Teflon and Perfluorooctanoic Acid (PFOA) What are Teflon and PFOA? Where are they found? Teflon® is a brand name for a man-made chemical known as polytetrafluoroethylene (PTFE). It has been in commercial use since the 1940s. It has a wide variety of uses because it is extremely stable (it doesn't react with other chemicals) and can provide an almost frictionless surface.
