Last update: 10th May 2013. Fixed a mistake in handling reflection case. Finding the optimal/best rotation and translation between two sets of corresponding 3D point data, so that they are aligned/registered, is a common problem I come across. An illustration of the problem is shown below for the simplest case of 3 corresponding points (the minimum required points to solve).

Finding optimal rotation and translation between ...

October 14, 2015: This is the best website that I have seen, it contain all the books i had been looking for and the best part is that it is available for free in a PDF file which makes things much easier. I would like to make a request and I would be very happy if it is accepted, that I have been in search of computer studies (Topical) series which are not available any were i look for them.

Book Details

Video game controversies are societal scientific arguments about whether the content of video games changes the behavior and attitudes of a player, and whether this is reflected in video game culture overall. Since the early 2000s, advocates of video games have emphasized their use as an expressive medium, arguing for their protection under the laws governing freedom of speech and also as an ...
