ICD-10 Clinical Modification - Wikipedia

Chapter 7 - Nervous System NERVOUS SYSTEM: OVERVIEW. Donna Mergler and José A. Valciukas. Knowledge of the nervous system in general and of the brain and human behaviour in particular are of paramount importance to those who are dedicated to a safe and healthy environment.

Chapter 7 - Nervous System - ilocis.org

The nervous system is the part of an animal's body that coordinates its behavior and transmits signals between different body areas. In vertebrates it consists of two main parts, called the central nervous system (CNS) and the peripheral nervous system (PNS). The CNS contains the brain and spinal cord. The PNS consists mainly of nerves, which are long fibers that connect the CNS to every other ...
