Step 2: Determine the Cube Root. Ignore the last three digits of the number called out by the spectator and choose the memorised cube which is just lower (or equal) to the remaining number. The cube root of this is the first digit of your answer.. Now consider the last digit of the number called out by the spectator. This will indicate the last digit of your answer.

Start by marking an outline of a square with a Sharpie that is slightly smaller than the interior sides of project box on the perf board. Use a straight edge and a knife to score the outline along the lines, then break off the excess material by placing the perf board in a vise or on the edge of a table, then apply pressure till the scored sides snap off.
